Internship certificate

Visality Consulting GmbH is a Germany-based consulting company and designs corporate strategies and logistics solutions, especially for companies from industry, logistics and transport services. The consulting and competence fields of Visality are process optimization, organizational development, logistics audits and supply chain management solutions as well as strategic business development, business reengineering, outsourcing and project management. The company has extensive industry and methodological knowledge in the above-mentioned tasks and has successfully carried out over 500 projects and consultations on behalf of 180 companies and led to measurable success.

Mr. Fabian Junginger, born on September 5th, 1990 in Berlin, completed a mandatory internship in our company from September 21st, 2016 to October 12th, 2016.

During this time, Mr. Junginger was involved in our normal project business and, after familiarization, was involved in a project in the healthcare industry for the process-oriented optimization of hospitals. His main task was to support the ongoing programming of the Healthcare Control Center tool developed by Visality.

We wish him continued success in his professional and private future.

With best regards,
